

Here you should visit this site for a lot, Google Hacking Database (GHDB) in here >

<http://johnny.ihackstuff.com/index.php?module=prodreviews> this will help you to search for warez, like a real warez d00dz =)

Here is some of my research on google:

lets use filetype:

filetype:iso iso

filetype:rar rar

ok, if you want to use some thing specific, try this

site:microsoft.com filetype:iso

Check this site also for more file extensions (filetypes):

<http://filext.com/index.php>

There is a lot what you can do with google just use your imagination, my friends!
