<http://www.devside.net/download/crypto/disclaimer1.html>

well, if you want text seperate from image, you could just do this:

```
<table width="100%" height="100%" border="0" cellpadding="0" cellspacing="0">  
<td><td>
```

your text here, it's totally fun, yeah yeah yeah

```
</td><td>
```

```

```

```
</td></tr>  
</table>
```

if you want to have the image on the left side, and text on the right side, just reverse the code like so:

```
<table width="100%" height="100%" border="0" cellpadding="0" cellspacing="0">  
<td valign="bottom" align="left">
```

```

```

```
</td>
```

```
<td><td>
```

your text here, it's totally fun, yeah yeah yeah

```
</td></tr>
```

</table>
