

First of all download this wonderful program:

-----  
-----  
//////////\*1000+ HACKING TRICKS & TUTORIALS - ebook By Mukesh Bhardwaj Blogger - Paid Version - only @  
TekGyd | itechhacks | Mukeshtricks4u\*////////  
-----  
-----

h@@p://www.speedguide.net/files/TCPOptimizer.exe

Then when u start trhe program goto settings goto cable modem or dsl whatevcer u have.

Go to MaxMTU and set it to 1500 this is optimal anything above this will not work as well.

Thats bout it!! Enjoy the speed!!
