

Step 1:

If you havn't already done so, pick the file you want to send

Step 2:

Visit

<http://s20.yousendit.com/>

Plug in your own email as the recipient's (A good way is to get a Gmail account. If you need one, PM me.) ,
select the file to send (up to 1GB).

Step 3: (The most important)

The normal is 25 downloads per file and then they disable it.

Here's what you do -

copy and paste this:

[http://anonym.to/?](http://anonym.to/)

in front of the yousendit link it self.. so basicallly it will look like this when you are done
