how to execute chm files in linux

download the following rpms on ur pc:-

http://dag.wieers.com/packages/chmlib/chmlib-0.35-1.1.fc3.rf.i386.rpm
ftp://rpmfind.net/linux/dag/fedora/3/en/i386/dag/RPMS/wxGTK-2.4.2-5.1.fc3.rf.i386.rpm
http://acmserver.cs.ucr.edu/%7Ensoracco/rpms/xchm-0.9.8-1.i386.rpm

and also install them in the same sequence. using the command:-

rpm -ivh <package name>

Note:- i am giving the path of packages for fedora cpre 3. if want for any other os take a look at the
following sites.

chmlib:- http://dag.wieers.com/packages/chmlib/
wxGTK:- ftp://rpmfind.net/linux/dag/
xchm: - platform independent for all redhat's.............
