 Hello Dos friends
This is a simple but most forgotton command to create
files like config.sys and autoexec.bat files, well heres it...
Even if u dont have a dos boot disk u can work ur way
to some extent.
****

At c:\ prompt
type
copy con config.sys
devicehigh=c:\dos\himem.sys
device=c:\dos\setver.exe
devicehigh=c:\dos\emm386.exe ram
dos=high,umb
last drive=z
then press CTRL + z
press enter
Config.sys file will be created.
****

Similarly u can create autoexec.bat
@echo off
prompt=PG
path=c:\dos;c:\
lh mouse
lh doskey
Press CTRL + Z
****
